### Homepage

Since the NYBGH site is content-driven, success will be defined by how often members (and non-members) return to it for useful information. Ultimately, the successful site becomes a go-to information source on healthcare delivery in the NY Metro Region.

To this end, the site should offer several kinds of information: 1). permanent content includes basic NYBGH who/what items; 2). Feature content has a magazine/newsletter feel; 3). News content is regularly updated (biweekly).

### Tools You Can Use

*(Tools are available to NYBGH members only. [Membership information](#))*

#### 2002 New York State HMO Report Card

The essential guide to making health care purchasing decisions returns for a third year.

#### Encouraging Disease Prevention in Your Workplace

Preventing sickness is a great way to reduce your company's health costs...

### Who We Are

The New York Business Group on Health, Inc. (NYBGH) is a not-for-profit coalition of 150 businesses, predominantly located in the New York Metropolitan Area. Members include employers, consultants, health plans, providers of health services, hospitals, groups of health professionals and government agencies.

The mission of NYBGH is to advocate, lead change and improve the way health care services are delivered, paid for and used in the New York Metropolitan Area. Working with its members and other interested parties, NYBGH aims to improve the region's health status, quality and access through the interplay of regulatory, market and community forces. Strategic areas of emphasis are Public Policy, Education, Data/Information and Value-Purchasing.

NYBGH focuses not only on the design and administration of health insurance programs, but also on the role of employers in addressing the behavior of the health care industry in response to the need of employees and their dependents as well as the community at large. NYBGH also addresses employees' health related problems as they affect and are affected by the workplace. NYBGH deals with salient issues through conferences and seminars, a variety of action-orientated task-forces and working groups and its bi-monthly Newsletter. In addition, NYBGH conducts research and demonstration projects related to its mission.

### The Leapfrog Group

Comprised of more than 100 public and private organizations that provide health care benefits, The Leapfrog Group works with medical experts throughout the U.S. to identify problems and propose solutions that it believes will improve hospital systems that could break down and harm patients. Representing approximately 32 million health care consumers in all 50 states, Leapfrog provides important information and solutions for consumers and health care providers.

## JOINING NYBGH

### How to Become a Member

Annual membership dues are based on the number of employees your company has in the Tri-State Area (NY, NJ, CT).

[Download the Membership Application](#)

Dues are payable January 1st for the calendar year. Organizations who join NYBGH for the first time during the second half of the year shall have their first year dues prorated. Dues payments for members with special fiscal cycles should be discussed with NYBGH Membership Services.

Please Note: Exceptions to the following schedule are: healthcare insurers, consultants, providers and other healthcare-related organizations. Dues for healthcare insurers, consultants, providers and other healthcare-related organizations are according to the schedule below, or \$1000 (which ever is greater). Dues for small consulting firms and brokerages (25 employees or less) are \$500.

### Top Top 10 Reasons to Join NYBGH

1. Be part of the voice of the employer community on health care policy in New York.
2. Assist in raising the level of awareness with the community on important health care cost and quality issues.
3. Assist in providing a sounding board for policy makers in New York whom might otherwise be unaware of employer concerns.
4. Participate in a forum for employers where you can interact and share similar experiences, as well as exchange ideas and information.
5. Hear professionals in the field discuss current health care topics through various conferences.
6. Learn where the rest of the

### Join Page

The site should have a separate join page. Basic information is supplemented by a call out box with the "Top 10" list currently on the site.

The user may download a PDF of the membership application.

This page also will feature links to other BGH's outside of NY.
